

CHARACTERISTICS

● **FIXING SYSTEM**

Supported directly on the structure of access floor

● **FINISHES**

Anonized aluminum

● **SPECIFICATIONS**

Linear grill for input and return of air, adaptable to gamaflor raised floor systems. Fabricated in extruded and anonized aluminum with frontal framework and vertical rack fixed to frame.

● **EFFECTIVE SECTION:** 0,112 m²

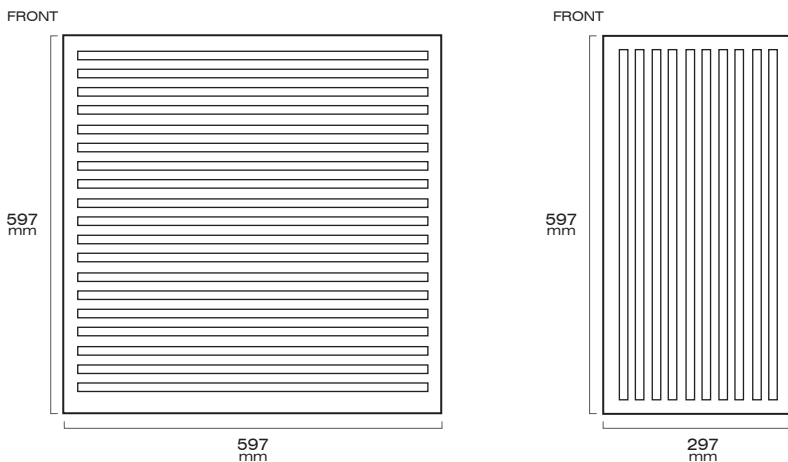

● **DIMENSIONS:** 597mm x 597mm
597mm x 297mm

EXAMPLE OF USE

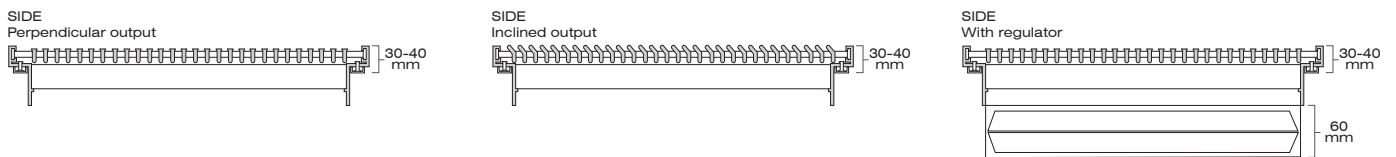

DESCRIPTION

Grill for input and output of air, provided for raised floor systems used usually for computer rooms, composed by a frontal framework and vertical rack fixed to the frame.

The output of air can be made through the AF-0 type with a 0° inclination rack, or through the AF-15 type with a 15° inclination. The grill is built to fit the structure of the raised floors in sustitution of one tile.

STRUCTURE FEATURES

LEED CERTIFICATION

Using this system contributes positively in obtaining LEED certifications, national and international.

AIR FLOW GUARANTEE

The closing, opening and direction systems guarantee a continous flow of air

ACOUSTIC STABILITY

The structure guarantees a steady flow of air without vibrations that improve noise reduction

ADJUSTABLE HEIGHT

The system is capable of being adjusted to any tile between 30mm to 40mm
